Available: remote, part-time or full-time

PROFILE

Full Stack Developer (Next.js, TypeScript, Supabase) with 13 years of experience in industry, 9 of them in a regulated GxP pharmaceutical plant. I build and maintain web apps used every day —a point-of-sale system in 4 shops and a finance tracker for 3 families— and maintenance software for pharmaceutical plants aligned with FDA 21 CFR Part 11. I'm looking to join a development team, remotely.

SOFTWARE PROJECTS

NexIndu — Pre-launch • nexindu.com.ar

Maintenance management software (CMMS) for regulated pharmaceutical plants.

- Work orders, preventive maintenance and spare-parts inventory
- Immutable audit trail with e-signatures (FDA 21 CFR Part 11, ALCOA+)
- AI assistant (Gemini) with RAG over plant documentation
- Playwright E2E tests and CI with security scanning (CodeQL, OWASP ZAP)

NexKio — Used daily in 4 shops

Offline-first point-of-sale system for small shops.

- Barcode-scanner checkout
- Inventory, store credit and reports
- PWA: keeps selling when the internet goes down

NexQuipu — Used by 3 families

Family finances built from credit-card statements.

- Reads the PDF statement and categorizes spending
- Detects subscriptions and hidden charges
- Push-notification alerts

WORK EXPERIENCE

Electromechanical & Automation Technician · B.Braun Medical Argentina — 2017 – Present

- Maintenance and PLC automation of pharmaceutical production lines in a GxP-regulated plant
- Real-time diagnosis and resolution of critical failures
- Continuous improvement with Lean/5S

Industrial Refrigeration Technician · Coiron — 2013 – 2017

- Led installation teams building industrial cold rooms from scratch
- Responsible for refrigeration, electrical and pneumatic systems

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, Tailwind CSS, Framer Motion
Backend & data: Supabase (PostgreSQL, Auth, Realtime), Zod, React Hook Form, Resend
Quality & DevOps: Playwright, Vitest, GitHub Actions (CodeQL, OWASP ZAP), Vercel, Git
AI: Gemini API, RAG with embeddings
Industry: PLC / automation, GxP and FDA 21 CFR Part 11, Lean/5S, pneumatics, electrical systems, industrial refrigeration

EDUCATION

Electromechanical Technician — Instituto Industrial Pablo Tavelli (Graduated 2009)

Software development: self-taught (2023 – Present)
